**CDM ELECTRONICS ANNOUNCES J. A. T. ELECTRONICS AS
CANADIAN MANUFACTURER'S REPRESENTATIVE**

January 16, 2006, Turnersville, NJ...CDM Electronics Inc., a leading distributor of commercial and military (MIL-SPEC) interconnect products, and premier provider of value-added contract manufacturing services has announced an agreement with J. A. T. Electronics, a Canadian-based manufacturer's representative firm. The agreement is effective immediately, and authorizes the marketing, sales, and support of all CDM's products and services throughout Canada. This strategic move affirms CDM's ongoing commitment to provide worldwide customers with local engineering support, enhanced access to their products, and state-of-the-art cable assembly capabilities.

Under the terms of the agreement, J. A. T. will sell CDM's full lines of high-quality circular, printed circuit, rack and panel, RF, and audio communications connectors to OEMs, EMS providers, and end users. The rep firm is charged with marketing CDM's cost-effective and innovative interconnect products to companies in such specialized industries as military, aerospace, industrial, medical and telecommunications. Moreover, J. A. T. will offer direct in-the-field support to key accounts, and aggressively promote CDM's comprehensive offering of customized interconnect solutions to their existing customer base and to prospective customers.

"Partnering with J. A. T. to better serve our Canadian customers and to further increase our global market share is an exciting opportunity," said Carmen Deleo, Jr., general manager of CDM Electronics. "The firm's long-standing reputation for excellence in interconnect technology, and unique understanding of design engineers' and purchasing professionals' requirements as they pertain to time-to-market and cost efficiencies make J. A. T. an ideal rep for our product offering. We are confident their specialized expertise will ensure a superior level of customer support, and that their appointment will enhance Canadian customers' ability to leverage CDM's world-class supply chain."

Joe Tomlinson, president of J. A. T., commented, “The addition of CDM’s best-in-class interconnect products and cable assembly capabilities to our expanding line card brings tremendous value to our customers. With this agreement, we can save our customers both time and money by offering them an even deeper selection of interconnect solutions from a single source. We look forward to a long and successful relationship with CDM.”

About CDM

CDM Electronics, Inc. is an authorized, stocking distributor of full lines of high-quality circular, printed circuit, rack and panel, RF, and audio communications connectors. Serving world leaders in the military, aerospace, industrial, medical and telecommunications industries, the Company additionally employs state-of-the industry documented and controlled systems in its value-added contract manufacturer division which specializes in mission-critical cable assemblies.
